

Primary teachers gear themselves for the next academic session

Cambridge Primary develops skills in English, mathematics and science. The curriculum is flexible with clear learning objectives. Cambridge provides full support to the teachers, through secure website, resource guides, face to face workshop and online training. Our primary teachers from Grade 1 to Grade 6 and the coordinator Ms. Bijal attended face to face workshop in different subjects on 24th and 25th Feb. The aim was to equip the teachers with the right knowledge in delivering the CIE curriculum and learn strategies for student centric instructions.

The Cambridge workshops are attuned to the global standards in improving pedagogy. The workshop leaders were rooted in academic rigour and were subject experts, Mr. Ron Journex for English and Mr. Andrew Machell for Maths and Science.. We look forward to our teachers coming forth with innovative ideas in teaching and motivating the learners for consistent learning. As the workshop was attended by teachers across India, our staff members could network with them and share their good practices.

IGCSE Inspection gets over smoothly

Mr. Nigel Copage the inspector for checking the standards and quality for administering Cambridge International examinations in various schools, visited TIS CIE on Friday 13th March 2015. His commendations and remarks are a source of motivation for the school.

Progression tests for primary school

The students from Grade 3-6 took Cambridge Primary Progression tests in English, Mathematics and Science. Parents will also receive an analysis of this report generated by CIE along with the usual school report card.

District Level Interschool Contest 2014 - 2015

| 4. Henisha Jethwa | Gr IX |

Students had rocking time while touring

The students from grade 4 onwards had a good break to gear up for their new academic year. The tour to Chandigarh , Shimla and Amritsar was thoroughly enjoyed by the students. Some of them said at the end, “ We wish the tour was a little longer instead of just 5 nights and 6 days.” The tour organizers , Joshi Tours and Travels left no stone unturned in giving the students the best accommodation ,food and sightseeing. Needless to say, the students are looking forward to another longer tour for this year.

School Canteen an issue with some parents.

With more physical activities, it is essential for the students to have wholesome breakfast which the school canteen provides the students with. Some parents had an objection to the mandatory breakfast from the canteen . It has been very sad that some parents say,“We have been trapped into the anti canteen campaign, but we wish to pay for the canteen. We know that the school authorities will not compromise on the

quality when it comes to children studying here”. Well, no parents have the right to instigate other parents and drag them into a mob behavior. This is typically an anti social activity which is condemnable.

As for the emails sent by the parents, the answer is, “ The cleanliness aspect of the canteen, nutritious aspect of food and quantity to be served are being taken care of.”

We are in full swing for 2015-16

At TIS (CIE) we want the students to be groomed the best possible way for an all-round development. More sports, more interactive sessions with teachers and more technology based learning will enhance more interest in the primary years. However, the secondary school students always look forward to more games and sports which is taken care of. Students have started with Gymnastics the very first day of the school. The teachers of grade 1 said, “ unlike previous years we have no cry babies this year, partly because of activities, and fun learning through interactive board. All that We wish in TIS (CIE) is children come to school looking forward to new things every day.

are facing numerous health problems at an early age like BP, Diabetes, and Obesity which begin in the school days. By munching on junk foods like fried potatoes, chips, Pizza, Burger etc. do not give wholesome nutrition.

The same food when taken with healthy combination not only gives complete nourishment to your body but also helps you for overall development i.e. Physical, Mental and social.

Healthy Breakfast.

A healthy Breakfast is the pillar for the day, when you get the fuel to do various activities in the whole day.

These days you have ample physical activities in school like the games, Physical education, dances, gymnastics and swimming. How a car needs fuel in the right quantity and in quality, so also a healthy breakfast which is complete in all nutritious value gives your body and brain the fuel. And you can perform better in your academics, sports, cultural activities, etc.

How should your mood be when you eat food. ?

Be happy and cheerful when you eat. When you sit isolated you compare the tiffins of each other. Here in canteen you dont. All of you eat the same food items. Here we dont even let you walk about with your tiffin or pick up cross talks with your friends ,which spoil your appetite. So healthy eating habits are inculcated here. You also learn table manners and you know how to get up while in a group.

The school year calendar

Parents may keep a record of the events as per the calendar attached below. Any changes will be notified well in advance.

Excerpts from Dietician's talk to the children in the canteen

Importance of food in school

Why we need food?

Life cannot sustain without adequate nourishment to our Body. We all need adequate food for growth development and to lead an active and healthy life.

What you think is Healthy Food :

In today's life we are so prone to outside food and junk food that we do not like to enjoy the good and nutritious food which we have been eating ,before Westernization set in. The consequences of which, we
